SteamAroma Nano – Voltage Selection

Automatic Steam Room Aroma Pump

110/115 Volt _____ **220/240 Volt** _____

Please select above the appropriate voltage. This refers to your steam room solenoid valve (not the steam generator). # of units

Signature _____ **Name** _____

Yes, I wish to purchase the above SteamAroma Nano Unit for \$245. After coupons \$95.

(10 coupons of \$15 each=\$150, redeemable with each separate aroma purchase of 4 or 5 gallons or more of Spa Partners aroma, starting with the 2nd aroma purchase – Please inform us each time you wish to use a coupon with aroma purchase).

Add \$15 for the 220/240 Volt version. Commercial steam rooms only.

SteamAroma Nano Owner's Manual – Spa Partners

Please note that the Nano aroma dispenser is normally wired into the solenoid that opens the steam valve, not into a standard wall outlet. *Units returned due to an incorrect voltage specification will require a 20% re-testing/re-packing charge. Please ensure that a qualified electrician installs the Nano Unit. Please let us know if your steam room holds over 15 people, we can handle this at no extra charge.*

Please fax or email the voltage specification to 1-973-386-9055 or central@spapartners.com. Thank you for your business!
